<https://docs.google.com/forms/d/e/1FAIpQLSfwJZtY30GYwmVzLbAD96Slo202bz2vamiBLFsblq29hQQAFg/viewform>

As we announced in this news issued on April 17, we will hold “Web seminars on online education” in sequence based on requests from the university. (The operating environment is planned to be Zoom)

Due to the urgent event, it is difficult to get enough information because there are few information days. After posting this news on the WEB bulletin board, notification emails will be sent to all full-time and part-time faculty members, but this is not guaranteed. We would especially appreciate if you would like to send this information to those who are acquainted or who are likely to be involved in this regard, as we would like to send information to the part-time instructors. Thank you very much.

[The first Seminar] Tuesday, April 21 from 10:00 a.m. to 11:30

### Introduction of online education for science and engineering experimental subjects

(Lecturer) Professor Kazuyuki Ito, Faculty of Science and Engineering

This is a seminar focus on initiatives by Department of Electrical and Electronic Engineering, Faculty of Science and Engineering. We will introduce an introduction of 3 different methods.

1. Alternative method with simulation
2. Video alternatives
3. How to substitute with a photo

★ New addition ★

[The second Seminar] Wednesday, April 22 from 17:30 to 19:00

### Introduction of foreign language course (English)

(The main language used will be English)

(Lecturer) Professor Noriko Ishihara, Faculty of Business Administration

This is a workshop-type seminar where we will tell you how to make interactive and multi-directional lessons using only resources available at Hosei university such as learning management system and Google tools, and then receive a question and answer
